## DESTACKER PALLET DISPENSER

# TITAN<sup>TM</sup>

## CONVEYORS

**Titan Destacker Pallet Dispenser** is designed to stack or destack pallets in automated pallet handling systems. No more stacking or destacking products by hand as operation is smooth and delivers the pallets exactly as you need them. Stackers & destackers will increase production and efficiently improve ergonomics in your operation. All of our destackers are custom built to meet your needs.

**Titan Destacker Pallet Dispenser** can be designed and built specifically to handle a variety of products such as:

- Wood Pallets
- Plastic Pallets
- Totes
- Trays
- Racks
- Full Pallet Loads

Consult your Titan Representative for further details.

### Engineered to fit any application

- Your choice of hydraulic, pneumatic or electro-mechanical power
- Heavy duty construction
- Dispense wood, plastic, metal pallets
- Interface with existing systems
- Control packages available
- Forklift and automatic load models
