

TITANTM CONVEYORS

Industrial Conveyor Specialists

Shuttle Carts - AGV's

Titan Conveyors has designed, built and integrated many types of shuttle carts for customers, used with AGV's and operator driven tow vehicle, in a variety of warehousing, production and automated storage and retrieval applications. Designed for moving products on an assembly line or transporting goods through a plant or warehouse, Titan has the experience needed to provide carts that will meet your specific application requirements.

A Titan Designed Automated Guide Vehicle for a major defense contractor carrying diesel engine components from workstation to workstation.

Advantages of AGV's

- Reduce risks of fork lifts
- Flexibility
- Long useful life
- Reliable
- Silent
- Maximum efficiency

A Titan Designed Automated Guide Vehicle for a major consumer product manufacturer carrying rolls of plastic from workstation to warehouse.

Rail Guided • Magnetic Tape Guided • Programmable • Optically Guided
Delivering what method works best for you!
